Open Text Fax & Document Distribution Group joins the Cisco Developer Network as Preferred Solution Developer and Completes Cisco Interoperability Verification Testing

Waterloo, Ontario – November 10, 2010 – Open Text announced that it has joined the Cisco Developer Network as a Preferred Solution Developer within the Unified Communications technology category. In addition, Open Text Fax Server, RightFax Edition has successfully completed interoperability testing with CISCO Unified Communications Manager 8.0 and CISCO Unity Connection 8. http://www.cisco.com/en/US/partner/products/sw/voicesw/ps556/index.html.

The Cisco Developer Network unites Cisco with third-party developers of hardware and software to deliver tested interoperable solutions to joint customers. As a Preferred Solution Developer, Open Text's Fax & Document Distribution Group has worked closely with Cisco to deliver enhanced solutions that deliver greater interoperability with Cisco networking solutions. Open Text also shares Cisco's strong commitment to customer service and satisfaction, has completed interoperability verification testing based on criteria set forth by Cisco and can provide their customers 24 hour, 7 days a week customer support. With offerings such as Open Text Fax Server, RightFax Edition, customers can quickly deploy a broad range of Cisco Compatible business applications, devices, or services that can enhance the capabilities, performance, and management of their Cisco network.

For more information on Open Text Fax Server, RightFax Edition's interoperability with CISCO Unified Communications Manager 8.0 and CISCO Unity Connection 8. go to: http://developer.cisco.com/web/partner/search?accountId=0014000000O6F9bAAF or http://faxsolutions.opentext.com/cisco-systems.aspx.
